Victorian Cast Iron Radiators

This range of Victorian Cast Iron Radiators are perfect for period properties, they come in a wide range of heights, widths and depths to suit almost any situation.

This traditional range of cast iron column radiators are supplied with floor supports. The radiators are finished in primer ready for painting or spraying. Colours can be applied on site or at a local car spray shop. Radiators are delivered in a maximum length of 10 sections, this is due to the rigidity of cast iron radiators. Radiators longer than 10 sections are delivered split into 2 or 3 sections and will need to be joined by your installer, on site. A joining key and full instructions are supplied. Delivery will be arranged for a specific weekday when someone is available to take delivery. Due to the weight of these products, someone will need to be available to help with the unloading of the goods.

The table below shows dimension and outputs per section.

										
	2 COLUMNS (V2)	4 COLUMNS (V4)	6 COLUMNS (V6)	9 COLUMNS (V9)						
										
MODEL	V9-30	V6-43	V4-58	V6-58	V4-68	V6-68	V2-88	V4-88	V6-88

Victorian Cast Iron Radiators

These radiators come with all necessary feet and top retaining stays to mount your radiator.

The feet supplied add 65mm to the overall height of the radiator (left).

The top retaining stays secure the top of the radiator to the wall (below)

As standard these radiators come with 1/2" B.S.P. bushes, though 3/4" are available on request.
